

Seminars in Organ Transplantation (SURG548C Sect 004)

These seminars provide an introduction to the basic science, clinical aspects and ethics of transplantation. At the end of the lecture series, trainees will work together to apply their knowledge and create posters which explain an issue in transplantation to a general audience.

All seminars take place in the Dept of Surgery Seminar Room at the Vancouver General Hospital

Directions to get to the Department of Surgery Seminar Room at the Vancouver General Hospital:

On 10th Avenue, enter the hospital at the door marked 950 West 10th Avenue (this is located in the Emergency Dept parking lot on west 10th). Go through the double doors; take elevator to 3rd floor and look for a sign: “UBC Department of Surgery Seminar Room 1” – Room 3134-1.

Date	Time	Topic	Speaker
Sept 5	0900	Transplantation: overview and technical aspects	Stephen Chung
	1030	Welcome reception	
Sept 12	0900	The organ retrieval process	Lisa MacTavish
