

Work-in-Progress Seminars

The Work-In-Progress Sessions will take place from February to April. All trainees, both first and second year, are required to attend and present at these sessions. Second year trainees who hold an external award can choose to participate through the Webcast for these sessions. Presentations are recorded and given to the trainee for didactic purposes.

Webcast Information

WIPs are webcast live to increase its accessibility to all investigators. The URL for the webcast is: <http://webinarfomubc.na5.acrobat.com/txttraining/>

After typing in your name, it will take 5-10 min and 2 screens for Adobe Connect to automatically direct you to the webcast.

Supervisor Attendance

Supervisors are requested to attend their trainee's seminar either in person or via the Webcast. A draft WIP schedule is in on page 11. **Trainees, please confirm your supervisor can attend on your seminar date. If you would like to change dates, you are responsible for switching dates with another trainee and for informing Jane Li (jane.li3@vch.ca) of the change. All changes must be made by Jan 9, 2015.**
