

21st Annual
W.B. & M.H. Chung Research Day
Monday, November 2nd, 2015

The W.B. & M.H. Chung Research day is the annual research day of the UBC Department of Surgery. Our keynote speaker this year is **Dr. Garnette Sutherland**, University of Calgary who will be speaking on his award winning work in magnetic resonance (MR) imaging and robotic surgery.

Dr. Sutherland is a Professor in the Dept of Clinical Neurosciences at the University of Calgary, and founder and Director of the Seaman Family MR Research Centre, Alberta Health Services.

His major research focus is the application of MR techniques to the study of neurological diseases. Among his innovations are the Intraoperative MR system, and the NeuroArm robotic system that can do neurosurgery. He has been recognized by numerous awards including an Order of Canada (2012) and induction into the Space Foundation's Space Technology Hall of Fame (2014).

- Research presentations take place in the Paetzold Auditorium at VGH. Everyone is welcome to attend.
- Abstract deadline is Sept 2, 2015
- Prizes will be awarded to the best presentation in: basic science, clinical outcomes and education research.
